

ARE YOU PREPARED?

June 1st marked the beginning of Hurricane Season. Although the season usually starts off quiet, the tropics tend to become more active during the late summer and early fall months. **History teaches that a lack of hurricane awareness and preparation are common in all hurricane disasters.**

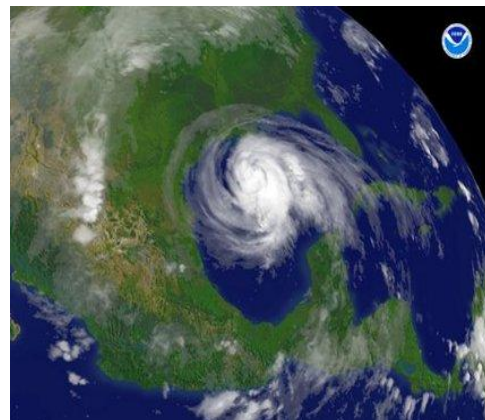

As your building automation system provider, **Automated Logic Corporation** would like to ask you...

How prepared are you?

Preparedness is the key to protection. By knowing your vulnerability and what actions to take, you can reduce your exposure. Now is the time for preventive action.

Have you considered the following?

- Data back up
- Data storage
- Controlled shutdown and startup
- Emergency parts

Local override procedures

Who will you call for assistance?

Do you have your emergency numbers where you can access them?

WE ARE HERE TO HELP!! Let us assist you in identifying your areas of vulnerability. We will structure a customized preparedness and recovery plan.

Please do not delay. Contact your account executive today and we will move forward with a plan of action tailored to your specific needs.
